

## WASLA News and Announcements

January 20, 2010

### Soil Scientists and Wetland Scientists Title Act

The proponents for the new Soil Scientist and Wetland Scientist Title Act, SSB 5698, have asked WASLA for feedback on their bill. Please take a moment to review the draft language for the bill and background 2008 Sunrise Review Report that recommends the regulation of soil and wetland science. Both can be found at the link below. If you are preparing mitigation or restoration plans, there is a good chance you may be affected by this bill if it becomes law.

Please send any questions, comments or concerns you have to Executive Committee member Courtney Landoll at [clandoll@watershedco.com](mailto:clandoll@watershedco.com). We will summarize your comments and report back to the bill proponents.
