As Landscape Architects of a Title Act State, we need a detailed plan on how we are going to make our practice act a reality. Being a title Act State (in Red) is starting to feel a bit lonely. Our proposed practice act bill is shaping up for completion by September. We are planning to submit the bill in January as part of a package of bills with the architects and land surveyors. A lot of work has gone into getting us this far and now we are preparing for the final push. In order for this effort to be successful, there are a number of actions that need to happen before and after the bill has been submitted. The Governmental Affairs Committee would like you to be a part of the planning of this effort. Contact Curtis LaPierre at curtis.lapierre@otak.com for an agenda.
